Hull Material : Fiberglass	Horsepower : 225
Power : Power	Year : 2023
Beam/Width : 2.92 Metres	Hours : 2
Weight : 1050 Kilograms	Fuel Type : Premium Unleaded
Engines : 1	Fuel Capacity : 300

Description

GEMINI 880 WAVERIDER POWERED BY MERCURY TWIN 225 HP is in stock and ready for immediate viewing and delivery from GEMINI MARINE SPORT BOATS which is located in the heart of the Gold Coast Marine Precinct.

In stock and available for immediate delivery.

The package as shown in the images includes the following:

1. WAVERIDER 880 - \$239,000
2. White Hull/Ice White Tubes 1670DTEX Orca Hypalon
3. Twin Ice White Mercury 225HP Digital Throttle Shift with Active Trim and Stainless-Steel Propellers - 51 Knot performance, 200 + NM Range at 28 Knots
4. GME Black Box VHF Radio
5. Simrad NSX Evo 9 with East Coast Navionics Chart Card and In Hull transducer
6. JL Audio MM50 Head Unit with 4 M3 Speakers
7. Sea Deck Flooring
8. Seastar Hydraulic Steering
9. Leather Steering Wheel
10. 300L Under Floor Fuel Tank
11. A Frame Ski Arch
12. Commander 8500 Centre Console - Gelcoat matched to Hull
13. 8500 Bolster Seat with Diamond Stitching in, Beige.
14. WR880 Leisure Rear Seat with storage under in Beige.

Note: we have Black Hull/Carbon Black Tubes and Grey Hull/Arctic Grey Tubes in stock and ready for custom builds.

The GEMINI WAVERIDER 880 with ultra-modern hull shape has taken the boating market by storm. One of the 'newer' designed RIBS in the Waverider range, the WR 880 has quickly become a best seller in both the commercial and leisure markets.

On the water the GEMINI WAVERIDER 880's stepped-volume hulls are unsurpassed for their soft ride, dryness, safe predictable handling and stability. They have the highest level of standard specification throughout, and the tubes are constructed of world leading DuPont Hypalon, renowned for superior life in Australia's harsh environment. You can't buy anything better.

TECHNICAL SPECIFICATIONS

Overall Length – 8800mm

Width (beam) – 2920mm

Internal Beam Max – 1800mm

Internal length (motor well to anchor locker – 6100mm

Hull Deadrise (degrees) - 24

Recommended Hp – 2 x 200hp

Max Hp – 400hp

Standard Fuel Capacity – 400l (or 2 x 300L)

Engine Length – Single Install – 30" (762mm)

Engine Length – Twin Install – 25" (635mm)

Bare Hull Weight – 1050kg

Total Weight Complete (estimate) – 2150kg

Max Payload – 1838kg

Max Passengers - 14

Total Air Compartments – 7

Tube Diameter – 570mm

Tube Material – 1670 Dtex HYPERLON

HULL, DECK AND TUBES

570mm 1670 DTEX DuPont Hypalon Tubes.

7 x separate air compartments complete with pressure relief valves.

Heavy duty dual side rub strips.

Anchor rope bow protection.

Aluminum keel protection.

Hull built to ISO 9001 certification.

Full width removable forward facing lounge seat with internal dry storage and hinged back rest.

GEMINI FACTORY

Established in 1979, based in Cape Town, South Africa, Gemini Marine has designed and manufactured the most comprehensive range of RIBs and inflatable boats for many of the world's rescue, military and patrol entities for over 35 years.

The rounded deep 'V' shaped Gemini hull offers great performance, comfort and excellent handling at top speeds, especially in heavy seas. They are built using the latest technology and techniques, ensuring quality and reliability.

All our boats have been arduously tested on some of the most treacherous coastlines and sea conditions in the world. The Gemini Technical, Development and Quality Teamwork in partnership with clients on a wide variety of rescue, military and law enforcement projects. Our client consultancy and progressive innovations ensure that we consistently meet the needs of our customers to master the challenges of an everchanging global market.

WHY BUY A GEMINI INFLATABLE BOAT

Brand heritage is everything. Gemini RIBs have set the benchmark for inflatable boats since 1979. You can be assured you're getting a quality product from a world class manufacturer.

Gemini's Fiberglass hulls have a smooth and quieter ride than their aluminum counterparts. The material is more forgiving and absorbs sound better than aluminum. It's a little more comfortable underfoot as it absorbs movement whereas aluminum tends to reflect movement which makes for a jolting ride.

Ideal as a tender, support boat or for fishing, diving, water-skiing, or any number of water-based pleasure past times.

A Gemini RIB is safer and more stable than any other vessel.

A Gemini RIB is lighter than most boats and therefore uses less fuel; in return you'll get better performance and enjoyment.

Inflatable side tubes act as flotation devices as well as fenders so when you need to pull alongside another boat there won't be damage and for swimming it's easier to climb back onboard with lower sides.

When riding in a choppy sea state the tubes act as cushions taking the side impact of swell to give you a more comfortable and drier ride.

QUALITY ASSURANCE

Quality is paramount in ALL we do at Gemini. Gemini has passed every test called for by all marine authorities, notified bodies and classification societies in the scope of the various certifications that we have received.

Each GEMINI RIB is built to achieve perfect hydrodynamic efficiency. Gemini hulls feature a true monocoque so the hydrodynamic efficiency of the monodendron shaped hull softens each ride and delivers teams anywhere in complete comfort and safety in even the most difficult conditions.

Our highly experienced in-house design and manufacturing team, together with key international affiliates call on well over 150 years of combined know how, and it is this wealth of knowledge that has built the GEMINI legend.

GEMINI SPORTS BOATS is open 7 days a week by appointment.
